

## Computer Forensic Tools

**ProDiscover** is a powerful family of computer security tools that enables computer professionals to collect, preserve, and analyze computer evidence while creating evidentiary quality reports for use in legal proceedings.

### Features Comparison

Feature	ProDiscover for Windows	ProDiscover Forensic	ProDiscover Investigator	ProDiscover Incident Response
Preview and Image Local Disk	■	■	■	■
Split / Merge Image files	■	■	■	■
Full Boolean Search Capability	■	■	■	■
Integrated Graphics Thumbnail viewer	■	■	■	■
Integrated Registry viewer	■	■	■	■
Dynamic Access to HPA (patent pending)	■	■	■	■
MD5 or SHA1 Hash Generation / Comparisons	■	■	■	■
Extract Clusters / Files	■	■	■	■
File / Cluster Cross Reference	■	■	■	■
Import / Export .dd format images	■	■	■	■
Extract EXIF information from jpeg/TIFF files	■	■	■	■
Automatic XML Report Generation	■	■	■	■
Add comments to evidence of interest	■	■	■	■
Disk Wipe Capability	■	■	■	■
Designed to NIST Imaging Tool Spec 3.1.6	■	■	■	■
GUI Interface with Integrated Help	■	■	■	■
FAT12/16/32 File Systems	■	■	■	■
NTFS File System	■	■	■	■
NTFS Dynamic Disk and software RAID	■	■	■	■
Sun Solaris File UFS Systems		■	■	■
Linux ext2 / ext3 file systems		■	■	■
Perl Script Support		■	■	■
Preview / Image Remote Disk over LAN/WAN			■	■
Linux boot disk provided			■	■
Encryption / GUID / password protection			■	■
Image RAM memory of live Remote System			■	■
Stealth Mode Remote Agent			■	■
Capture System Volatile State Information				■
Process Explorer for remote system				■
Create and Compare Hash Baseline				■
Find Unseen Files and Processes (patent pending)				■
View connected & listening IP ports / end points				■
Hash compare to known Trojans and rootkits				■

#### Forensic Console System Requirements

- Windows 2000/2003/XP
- 1.2 MHz or higher Pentium-compatible CPU
- 256 MB RAM (512 MB recommended)
- 500 MB available hard-disk space
- CD-ROM or DVD-ROM drive
- VGA or higher resolution monitor
- Keyboard and Mouse (or compatible pointing device.)

#### License

ProDiscover is licensed to be installed on up to three workstations for one concurrent user. The PDServer™ Remote Agent and Linux boot disk may be utilized on an unlimited number of systems. Site, Enterprise and Source licenses are also available for ProDiscover.
