

## Compact, Affordable Hard Drive Duplication Solution

Single target IDE/SATA hard drive duplication

Speeds approaching 2.5GB/min

Handheld portable device weighs less than 8 ounces!

The Echo Plus™, is the industry's most compact and affordable handheld cloning solution. This little powerhouse is feature-packed, easy to use and provides duplication to and from IDE and SATA hard drives at speeds up to 2.5GB/min. The EchoPlus weighs only 8 ounces and its small footprint make it perfect for in-the-field or on the workbench cloning.

### OPTIONS

The following options are available for the EchoPlus™

- CloneCard PRO™ PCMCIA adapter for laptop cloning
- OmniPort™ provides immediate access to USB flash drives
- CompactFlash adapter for flash media
- 1.8", 2.5", ZIF drive adapters
- Rechargeable battery pack provides extended use
- 18" Extended length SATA and IDE cables
- eSATA & microSATA drive cables
- Extended warranties are available

### IN THE BOX

The EchoPlus™ includes;

- Power Supply
- Two 5" IDE Cables
- Two 9" SATA cables
- Users' Guide
- Rugged carrying case

### FEATURES

- Single master to single target hard drive to hard drive duplication
- Supports IDE, EIDE, UDMA and SATA, and provides support for eSATA and microSATA drives with optional cables
- Master and target can be different sizes, brands and models
- Advanced software includes CleverCopy™; automatically scales partitions to fully fit target drives (if partition is FAT16/32 or NTFS) and MirrorCopy™; a simple sector by sector copying (e.g. Mac®, Sun®, Unix, Linux)
- Verify sectors feature; turn verify "On" to test for bad sectors on target drives
- Clones all operating systems including Windows XP, Windows Vista, Windows 7, Mac, Linux and Unix®
- Adjusts target drive structures so target will boot properly
- BA/Large Cylinder/Head Translation Determines partition table head translation on PC BIOS type
- Includes one year parts and labor warranty

### SPECIFICATIONS

Power Requirements	Power Consumption	Operating Temperature	Relative Humidity	Net Weight	Dimensions	Agency Approvals
90-230 47/63 Hz	10W without drives	5-to 60°C	10% to 80%	0.50 lbs	3.8W X 0.7D X 6"H	RoHS compliant
